@Hanlon

Established in 1999 with Corporate in Tucson, Arizona we have since opened branch offices in Phoenix, Arizona and Elko, Nevada. HEA's success is built on the fundamental model of a full-service in-house Multi-Disciplinary Engineering, Architecture and Management Firm supporting Commercial, Corporate, Industrial, Institutional, Mixed-Use and Religious Architecture.

Nationally recognized, a significant portion of our work involves renovation and modernization of existing facilities throughout the United States, Canada, Central and South America. We have achieved recognition by dedicating experienced individuals/teams whose task is to maintain the attention to detail for a project duration resulting in an on time and within budget delivery.

Single Sourcing for Professional A&E Services maintains better Quality Assurance/Quality Control through communication and efficiency. As Industry Experts with cutting edge production and modeling tools we are your single source firm.

“Merging traditional values with today’s technologies to better serve our Clients’ future.”

Single Source

Architecture & Engineering
